Subject: Safety First - Active Work Zone

Safety First -- Active Work Zone

In November, the MGCA Water Tower Replacement Project will begin. You will see this firsthand as there will be orange safety fencing around the water tower work zone at Bell Avenue and 5th Street. For your safety, as well as the safety of your family and guests, **no one will be permitted in this area.** Regardless of the presence of workers, it will be deemed a 24/7 hard-hat zone.

Work crews will work a four-day workweek and will be onsite from approximately 7 a.m. until 5 p.m. The days of their workweek will be weather dependent. There may be street closures during various phases of the project, and they will be communicated to you as soon as possible.

Again, the work zone is off limits for MGCA Members, family, and their guests. To satisfy your curiosity and document this historical project, photographs will be taken on a regular basis. We intend to share these photos with you from time to time. So, stay tuned—and most important, **BE SAFE.**

Thank you.
